

## Focus on Indiana Libraries

5/25/2022

The Focus on Indiana Libraries newsletter has gotten a refresh! We hope you like the changes made based on your valued feedback and suggestions.

### This Month's Organization Update

Indiana Library Federation has a [new website!](#) In a recent membership questionnaire, members were able to share feedback on the organization, operations and communications. It became clear the ILF website was in need of a refresh. That feedback influenced the migration, auditing, and implementation of what is shared on the ILF website and how our members engage with the site. The website will be continually updated over the next few months!

### Advocacy Updates

ILF's important work of advocating for and on behalf of all libraries and the communities they serve does not stop, even when out of legislative session. The Advocacy Committee in partnership with Bose Public Affairs Group will continue to strategize throughout the rest of 2022 in preparation for the upcoming session.

### Great Things are Happening in Indiana Libraries

Great things do happen in Indiana... and we want to hear about it! Share using the link below what your library and colleagues are doing to educate, lead, and advocate for

their communities. We would love to share in the Focus and on social media.
